

Global Citizenship Program Frequently Asked Questions

About School the World

School the World is an international education non-profit organization committed to solving extreme poverty through the power of education. In the past twelve years, we have built 107 schools throughout Guatemala, Honduras, and Panama by partnering with the local government and rural community leaders. Aside from building schools, we train teachers, empower parents through bi-monthly meetings and sustainably stock classroom libraries through a matching program. In 2016, we began introducing an initiative around PLAY to our strategy. Play is proven to increase students' mental and physical health, learning skills, gender equality and life skills. We committed to building play spaces to facilitate free play, organized recess games, and eventually an inter-school soccer league and have since built 56 playgrounds at our existing schools.

Who?

Any high school student can apply to participate! Students under the age of 14 are welcome to apply, but require a parent to travel with them as a chaperone.

Where?

Our Global Citizenship & Travel Program operates in the rural northern region of Panama, (the Veraguas province) working with the indigenous people of the Ngäbe-Buglé comarca, the Western Highlands of Guatemala, and the Southern region of Honduras.

When?

Our student service trips coincide with typical spring and summer school vacation weeks.

Spring 2022 (Panama)

March 12th – 18th

April 16th – 24th

Summer 2022*

July 11th – 19th

July 25th – August 2nd

**Summer 2022 is dependent on the vaccination progress in Guatemala and/or Honduras.*

How much does it cost?

Students commit to contributing \$3,650 to fund a primary school building and/or a playground. Funds can be paid in full or students can choose to fundraise in the months leading up to departure date. A nonrefundable deposit of \$750 is required with each application and will go toward the total trip cost.

What Will Students Do?

Students raise the funds to build a primary school building and/or a playground for students living in poverty. At the end of the week in the community, everyone (including the entire community and local Mayor) will participate in a Dedication Ceremony to celebrate the completion of the project. Among other things, student travelers can expect to mix cement, install play equipment and paint. Students will also have time within the classrooms to help teach lessons, as well as complete a home visit to understand daily life within the community.

While raising funds in the months leading up to the trip, the students will learn about successful fundraising tactics, as well as attend educational seminars to learn about the region's history and culture. These pre-trip meetings also discuss global literacy and what it means to be a global citizen.

Is It Safe?

Safety is our top priority. We personally investigate and inspect medical facilities, housing and food preparation. We evaluate each building project for any potential safety concerns. We use only known drivers and vehicles, requiring certificates of insurance and maintenance. We carefully vet all of our communities and spend considerable time in them before beginning any build. There also will be at least two STW leaders (one U.S., one local) and a traveling nurse or local doctor in addition to adult/parent chaperones with each group. STW's minimum chaperone to student ratio is 1:6.

We purchase insurance for each student to cover medical risks, emergency medical evacuation and cancellations due to death, illness and similar situations. Families have the option to purchase additional "Cancel for any Reason" insurance should they choose to. Reach out to a member of our staff to discuss as needed.

We have been working in Central America since 2009. We have a strong local team of 25 on the ground who are in regular communication with the local government and communities your students will be partnering with. Our staff regularly monitors the US State Department for travel advisories for the specific areas where we work and travel to.

A safety marker used by other student exchange groups is the presence of the Peace Corps, who are traditionally highly present in the areas where we work. The Peace Corps are training new classes for Guatemala and Panama and have no plans to leave the country in the foreseeable future. We monitor any change in this activity prior to and during all trips.

What is your rationale about COVID-19 and travel?

School the World has closely monitored the status of COVID-19 in each of the countries we travel to and based the decision to resume our student service program on the vaccination progress of each country. In Panama, 80% of the population has received two doses of the vaccine. Some of our communities in Panama have even reached 70% vaccination among adults and are currently administering vaccines to students. We are carefully monitoring the vaccination progress in Guatemala and Honduras for Summer 2022.

We also rely on information from international and federal agencies like CDC and WHO, along with information from our in-country partners, to create protocols that will ensure the safest possible travel experience. We are also adapting our existing programming to include more health and safety protocols and will continue to be flexible as situations change.

Do I need to be vaccinated to travel?

Following CDC recommendations, all students and adults traveling with School the World are required to be fully vaccinated against COVID-19. Full vaccination occurs two weeks after the second dose of a two-dose vaccine or one dose of a single-dose vaccine.

To give further context to this decision, Panama currently requires travelers from the U.S. to present proof of vaccination upon arrival to avoid a mandatory 72-hour quarantine and multiple testing requirements. While we respect everyone's personal decision to be vaccinated, requiring vaccination is the best way to maximize the trip experience for everyone when traveling with a group and working with the population we serve in Central America.

Will I need to be tested?

We are actively monitoring the changing travel requirements for both entering and exiting the U.S. and Panama. At the moment, we are also requiring that all travelers obtain a negative COVID test at home prior to traveling, even if asymptomatic, to avoid the possibility of producing a positive test in Panama.

A negative COVID test is also required before entering the communities and will be organized by our contacts in country and the Ministry of Health and our partner hospitals as needed.

To return home, all U.S. Citizens must again provide proof of a negative COVID test taken within 24 hours prior to departure along with proof of vaccination.

School the World will arrange for all travelers to be tested upon entering the community and within the departure window and are prepared to stay with any student who presents a positive test.

Are there other safety protocols?

Most of the work during the trip is done outside where the probability of transmission is low. However, students will be expected to follow federal guidelines and wear masks during air travel as well as during travel to and from the work site, inside hotels and local establishments, in places where masks are mandated by the community, and wherever social distancing is not possible.

A trip nurse or doctor will monitor students for symptoms of COVID-19 and perform tests during the course of the trip as needed. A full emergency preparedness plan is in place and updated to include response to COVID risk.

School the World continues to monitor country guidelines and travel restrictions and will update policies to reflect the latest updates.

What are the requirements?

- Complete and submit an application with a 250-300 word essay
- Submit a deposit of \$750 by the application deadline and raise or contribute (or a combination thereof) an additional \$2,900 at deadlines TBA. (Fundraising training and support is provided to all students).
- Complete and submit all required waivers of liability signed both by the student and a legal guardian to be distributed at a later date via SchoolDoc, an online management system.
- Submit an accurate health history and a certification of good health from a physician, including a statement that the student does not have any physical, psychological or medical condition that would inhibit participation in the mission.
- Provide an electronic copy of the student's COVID-19 vaccination record.

- Visit travel clinic with preliminary itinerary to obtain any recommended vaccinations at least three weeks prior to trip.
- Participate in pre-trip seminars to review trip preparation and general history/culture of Panama.
- Complete and send thank you letters to all donors within two weeks of donation/travel and provide STW with spreadsheet of all donors (we will provide templates).
- Mandatory parent/guardian participation in final pre-trip team meeting.
- A passport valid for at least 6 months after trip return date.
- Cooperation with all pre-&post-trip student responsibilities, such as community follow up and submitting your photos to our online account.

Can I be a chaperone?

We accept applications for parent chaperones! The chaperone trip fee of \$2,500 covers all travel/room and board expenses. If teachers are interested in forming a group or joining students from their school, please reach out to us for discussion. If a group of 12-15 students is formed from a school, we will sponsor a teacher to travel.

How Will Students Raise the Funds?

STW will provide the students with a “Fundraising Toolkit” and guide the students through letter-writing, online campaigns, a list of suggestions for independent group event and will facilitate at least one group fundraising event, proceeds of which will be split among those who participate. Every student will have the opportunity to create their own individual online fundraising page through our peer-to-peer online platform.

What If Students Do Not Meet the Fundraising Deadlines?

If students do not meet the fundraising deadlines, we require parents to make up the difference between the amounts due and the amount raised. Non-compliance will result in removal from the program. If you would like to discuss special circumstances please contact Danielle Adams at 860-874-7103.

Are There Refunds?

Please see our full refund policy: https://info.schooltheworld.org/hubfs/RefundPolicy_2021.pdf

Are There Any Other Costs?

There will be no other required STW costs. If students choose to participate in an extra activity in Panama, there will be an additional cost of \$25-\$45. Students may choose to tip any hospitality vendor, and/or bring additional spending money for souvenirs. Students should bring their own money for meals during travel in airports, as well as for any checked baggage fees.

Where does STW general funding come from?

One of our past funders was USAID, a division of the US State Department. We also receive substantial support from many generous individuals, corporations and foundations, such as The Harbourton Foundation, the General Electric Company, the GE Foundation, Cigna and Dole.

Will there be any cultural activities?

Yes, there will be afternoon cultural activities varying per trip. They also will spend at least one day and evening in David, the capital of the Chiriquí Province in Northern Panama, or the Spanish colonial city of Antigua in Guatemala. Students will also have the opportunity to participate in an extra cultural activity (options provided at later date).
